

■ Ship My Ride – Car Shipping Prep Checklist

Use this checklist to prepare your vehicle for snowbird car shipping. Following these steps ensures a smooth pickup and delivery.

- Wash your car's exterior and take date-stamped photos (all sides, wheels, dash, odometer).
- Leave about 1/4 tank of gas in the vehicle.
- Remove toll passes and disable alarms before pickup.
- Remove personal items from the vehicle interior and trunk.
- Provide only one set of keys to the driver.
- Document existing dings, scratches, or wear on the Bill of Lading at pickup.
- Confirm your pickup and delivery contacts are available or authorized to sign paperwork.
- Review your carrier's cargo insurance details before transport.

Tip: Snap a photo of your odometer and VIN for extra peace of mind. For questions, quotes, or assistance, visit <https://weshipyourride.com/> or call us at **1 (866) 890-7447**.
